Anexo II. Papers publicados e/ou submetidos relacionados à tese

1. First-time report of metalloproteinases in fish bile and their potential as bioindicators regarding environmental contamination. Hauser-Davis, R.A.; Lima, A. A.; Ziolli, R. L.; de Campos, R. C. *Aquatic Toxicology*. V. 110-111, p. 99-106, 2012. Fator de impacto: 3,333. Nível A2 (Capes).
2. Fish Metalloproteins as Biomarkers of Environmental Contamination. Hauser-Davis, R.A.; Ziolli, R. L.; de Campos, R. C. *Reviews of Environmental Contamination and Toxicology*. 2012. No prelo. Fator de impacto: 2,477. Nível B1/B2 (Capes).
3. A novel report of metallothioneins in fish bile: SDS-PAGE analysis, spectrophometry quantification and metal speciation characterization by liquid chromatography coupled to ICP-MS – Hauser-Davis, R.A.; Araújo, R.A.; Ziolli, R. L.; de Campos, R. C. *Aquatic Toxicology*. 2012. No prelo. Fator de impacto: 3,333. Nível A2 (Capes).
4. Fish bile as a biomarker for metal exposure – Hauser-Davis, R.A.; Araújo, R.A.; Oliveira, T.F.; Ziolli, R. L.; de Campos, R. C. *Submetido, Marine Pollution Bulletin*. Fator de impacto: 2,359. Nível B1 (Capes).

Anexo III. Outras produções publicadas e/ou submetidas

1. Associations between serum selenium levels and the conversion of bacteriological tests during anti-tuberculosis treatment. Milena Moraes; Daniela M Ramalho; Karina N Delogo; Priscila F Miranda; Eliene D Mesquita; Hedi M Oliveira; Antônio Ruffino-Netto; Paulo C Almeida; Rachel A Hauser-Davis; Reinaldo C Campos; Afrânio L Kritski; Martha M Oliveira. ***Submetido, Journal of Trace Elements in Medicine and Biology. Fator de impacto: 2,176. Nível B1 (Capes).***

2. Elevated CO₂ effects on growth and nutrient allocation in a pasture plague plant, *Senna reticulata*. Saraiva, A.C.F.; Mesquita, A.; Hauser-Davis, R.A.; Oliveira, T.F. ***Submetido, Biomass and Bioenergy. Fator de impacto: 3,840. Nível B1 (Capes).***

3. The effects of environmental contamination on enzyme GST levels and overall health in mullets from contaminated Brazilian lagoons. Bastos F. F; Hauser-Davis, R.A.; Zioli, R.L.; Campos, R.C.; Cunha Bastos V. L. F; Cunha Bastos J. ***Submetido, Marine Pollution Bulletin. Fator de impacto: 2,359. Nível B1 (Capes).***

4. Logistic regression and fuzzy logic as a classification method for feral fish sampling sites. Hauser-Davis, R.A.; Oliveira, T.F.; Silveira, A.M.; Protazio, J.M.B.; Zioli, R.L. ***Submetido, Environmental and ecological statistics. (Pendente para aceite com pequenas revisões). Fator de impacto: 1,645. Nível B1 (Capes).***

5. Mercury and methyl Mercury ratios in caimans (*Caiman crocodilus yacare*) from the Pantanal area, Brazil. Vieira, L.M.; Nunes, V. da S.; Amaral, M. C. do A.; Oliveira, A.C.; Hauser-Davis, R.A. and Campos, R.C. ***Journal of Environmental Monitoring. V. 13, p. 280-287, 2011. Fator de impacto: 1,989. Nível B1 (Capes).***

6. Guiana Dolphins (*Sotalia guianensis*, Van Benédén 1864) as Indicators of the Bioaccumulation of Total Mercury along the Coast of Rio de Janeiro State, Southeastern Brazil. Moura, J.F.; Hacon, S. de S.; Veja, C.M.; Hauser-Davis, R.A.; Campos, R.C.; Siciliano, S. **Bulletin of Environmental Contamination and Toxicology**, v. 88 (1), p. 54-59, 2011. Fator de impacto: 0,609. Nível B4 (Capes).
7. Cleaner red mud residue production at an alumina plant by applying experimental design techniques in the filtration stage. Borges, A.J.P.; Hauser-Davis, R. A.; Oliveira, T.F. **Journal of Cleaner Production**, v. 19, p. 1763-1769, 2011. Fator de impacto: 2,425. Nível B1 (Capes).
8. Case study: Comparing the use of nonlinear discriminating analysis and Artificial Neural Networks in the classification of three fish species: acaras (*Geophagus brasiliensis*), tilapias (*Tilapia rendalli*) and mullets (*Mugil liza*). Hauser-Davis, R.A.; Oliveira, T.F.; Silveira, A.M.; Silva, T.B.; Ziolli, R.L.. **Ecological Informatics**, v. 5, p. 474-478, 2010. Fator de impacto: 1,351. Nível B3 (Capes).
